

Established in 1988, the Nevada Psychological Association (NPA) is a non-profit professional association representing licensed psychologists and others affiliated with the delivery of psychological services in the state of Nevada. Our mission is to advance and represent psychology as a science and a profession, as well as to serve the professional needs of our membership and the community.

“Psychology is a diverse profession, grounded in science. Psychologists study both normal and abnormal functioning and treat patients with mental and emotional problems. They also study and encourage behaviors that build wellness and emotional resilience. Today, as the link between mind and body is well-recognized, more and more psychologists are teaming with other health care providers to provide whole-person health care for patients.”

American Psychological Association (APA)

Our members (psychologists, students, affiliate/associates) work in professional and academic settings including but not limited to:

- State agencies
- Schools
- Hospitals
- Private practices
- Universities
- Community and non-profit agencies

NPA Promotes Social Welfare and Education

- Advocacy for psychology, psychological services, and the mental/behavioral health needs of Nevadans through the NPA Legislative Committee at the State Legislature and at the Federal level in Washington, D.C.
- Presentations and outreach to businesses and community groups through public education programs that enhance the general understanding of psychology and psychological services

Our Initiatives Include:

State and Federal Advocacy—Promoting Diversity—Training and Early Career Support for Psychologists—Public Education Campaigns—Referral Services
